SUPPLEMENTAL REISSUE DECLARATION

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to
my name.

I believe I am an original, first and joint inventor of the subject matter which
is claimed and for which United States Patent No. 5,945,416 was granted on the invention
entitled

Method for Treating Pain

the specification of which:

[] is attached hereto

[X] was filed on March 24, 1997 as United States Application
Serial No. 08/823,461

Docket No. X-10576A

whereof Eli Lilly and Company, on whose behalf and with whose assent this application is made, is now sole owner by assignment, and for which invention I solicit a reissue patent.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, and further including the new claims 45 through 91 which are being added by preliminary amendment submitted with the reissue application.

I acknowledge the duty to disclose all information known to me which is material to patentability as defined in 37 C.F.R. § 1.56.

I believe United States Letters Patent No. 5,945,416 may be at least partly inoperative for the reason that I claimed less than I had the right to claim in the patent.

I state that every error in the patent which was corrected in the present reissue application, and is not covered by the prior declaration submitted in this application, arose without any deceptive intention on my part.

Since this reissue application was filed within two years of the issue date of United States Letters Patent No. 5,945,416, broader claims than those in the issued patent are permissible.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
